

ProQuest® Research Solutions

Information solutions that propel research

Powering Student Research

ProQuest databases provide comprehensive research solutions to support advanced study and college-prep curricula.

Inside ProQuest, users will find scholarly journals, magazines, newspapers, and other specialized information sources that cover a wide range of subjects, including business, current events, education, general reference, health and medical, language arts, sciences, and social studies.

Full-text coverage comes from thousands of leading publications, including national newspapers like *The New York Times*, *Los Angeles Times*, and *USA Today*; and exclusive content from the world's top publishers, such as Cambridge University Press, Dow Jones, and more.

Popular ProQuest databases include:

- **ProQuest® Central K12**, our largest aggregated periodical database for schools. This extensive online collection provides one-stop access to more than 6,100 journals, magazines, and newspapers—with over 4,600 titles in full text.
- **ProQuest® Platinum** delivers more than 2,000 journals and magazines, plus targeted newspaper coverage highlighting the leading international, national, and regional newspapers.
- **ProQuest subject-based collections—** offer a variety of specialized collections for in-depth research, including allied health, business, multicultural studies, and technology.
- **ProQuest® Education Journals** offer periodicals that address all aspects of K-12 education, from administration to instruction, for use in professional development and research.

All this is delivered via the award-winning ProQuest platform, which offers intuitive search and powerful features to aid the entire research process. ProQuest® Smart Search, search widget, article translations, and auto-citations are just a few of the tools that facilitate research from start to finish.

“This database is easy to navigate, with intuitive screens and drop-down menus for help. The wide variety of subjects indexed makes this database a good choice for general research. **Summing Up: Recommended. All levels.**”
